RI TRANSPARENCY REPORT

2017

Altor Funds

About this report

The PRI Reporting Framework is a key step in the journey towards building a common language and industry standard for reporting responsible investment (RI) activities. This RI Transparency Report is one of the key outputs of this Framework. Its primary objective is to enable signatory transparency on RI activities and facilitate dialogue between investors and their clients, beneficiaries and other stakeholders. A copy of this report will be publicly disclosed for all reporting signatories on the [PRI website](#), ensuring accountability of the PRI Initiative and its signatories.

This report is an export of the individual Signatory organisation's response to the PRI during the 2017 reporting cycle. It includes their responses to mandatory indicators, as well as responses to voluntary indicators the signatory has agreed to make public. The information is presented exactly as it was reported. Where an indicator offers a response option that is multiple-choice, all options that were available to the signatory to select are presented in this report. Presenting the information exactly as reported is a result of signatory feedback which suggested the PRI not summarise the information. As a result, the reports can be extensive. However, to help easily locate information, there is a **Principles index** which highlights where the information can be found and summarises the indicators that signatories complete and disclose.

Understanding the Principles Index

The Principles Index summarises the response status for the individual indicators and modules and shows how these relate to the six [Principles for Responsible Investment](#). It can be used by stakeholders as an 'at-a-glance' summary of reported information and to identify particular themes or areas of interest.

Indicators can refer to one or more Principles. Some indicators are not specific to any Principle. These are highlighted in the 'General' column. When multiple Principles are covered across numerous indicators, in order to avoid repetition, only the main Principle covered is highlighted.

All indicators within a module are presented below. The status of indicators is shown with the following symbols:

Symbol	Status
✓	The signatory has completed all mandatory parts of this indicator
☑	The signatory has completed some parts of this indicator
🔒	This indicator was not relevant for this signatory
-	The signatory did not complete any part of this indicator
Ⓜ	The signatory has flagged this indicator for internal review

Within the table, indicators marked in blue are mandatory to complete. Indicators marked in grey are voluntary to complete.

SG 03.1 Indicate if your organisation has a policy on managing potential conflicts of interest in the investment process.

Yes

SG 03.2 Describe your policy on managing potential conflicts of interest in the investment process.

In Altor's Responsible Investment and Ownership Policy it's stated: "High standards of business ethics". That statement includes managing potential conflicts of interests. More detailed processes and procedures are stated in robust policies by Fund in accordance with local regulations. Each Fund maintains a conflicts policy which requires associated staff to identify conflicts as soon as they arise and then manage them sensitively with assistance from the Compliance Officer. All active conflicts are recorded on the conflicts register which is maintained by the Compliance Officer.

In addition to guidance on dealing with basic conflicts of interest as set out above, the conflicts policy also contains internal rules regarding the Fund Manager's exercise of voting rights. In this regard, the Manager is committed to preventing and managing conflicts arising in connection with the exercise of voting rights in Fund portfolio companies. To the extent that the Manager is involved in exercising such rights, it will endeavour to always exercise them in the best interests of the Fund and its investors and in accordance with the investment objectives of the Fund.

Overview

PE 04	Mandatory	Public	Core Assessed	PRI 2
-------	-----------	--------	---------------	-------

PE 04.1 Indicate if your organisation's investment guidelines for private equity refer to responsible investment.

- Our investment guidelines do refer to responsible investment

PE 04.2

Describe how your organisation's investment guidelines outline your expectations on staff and portfolio companies' approach towards ESG issues [Optional].

As part of the investment decision making process, ESG matters are reviewed and documented in preparation for the Investment Committee meetings, IC1 and IC2. Standardized templates, including key questions are available to prepare for the meetings. The IC1 meeting documentation is covering the ESG matters on a high level - historic and forward looking. The IC2 meeting documentation shall include the target's status versus Altor Funds' minimum ESG requirements.

Material ESG matters are included in the Investment Memorandum as input and documentation for the investment decision. In the deal structuring and execution process, ESG matters are included, together with other potential risks, in the transfer agreement. ESG matters are thereafter addressed in the post-investment analysis and assessment process, called A3 by Altor (Analysis, Alignment, Aspiration).

The guidelines cover the key dimensions of the environmental, social and governmental issues. Altor's guidelines define relevant ESG issues for all sectors covered by Altor's investment strategy. Altor's guidelines are based on recognized international principles based primarily on global compact's 10 principles. Altor's guidelines define ESG-related responsibilities for internal staff pre-investment and post investment. The guidelines apply to all Altor staff. There are no major exceptions or variations in Altor's implementation of the guidelines.

- Our investment guidelines do not refer to responsible investment
- We do not have investment guidelines

PE 05.2

Indicate how your fund placement documents (PPMs or similar) refer to the following responsible investment aspects of your organisation:

- Policy and commitment to responsible investment
- Approach to ESG issues in pre-investment processes
- Approach to ESG issues in post-investment processes

PE 05.3

Describe how your organisation refers to responsible investment in fund placement documents (PPMs or similar). [Optional]

As a commitment to the investors and the communities in which Altor and its portfolio companies operate, Altor has adopted a Responsible Investment and Ownership Policy. Altor is referring to the policy in PPMs and other key documents. The policy is stating how the organization, its advisors and its portfolio companies must approach ESG and Responsible Investment matters.

Altor's ambition is to assess and evaluate each investment opportunity to ensure that ESG risks and opportunities are identified in the screening and investment process.

Altor's governance model is an essential component in the portfolio companies' value creation. The board of directors of each portfolio company is responsible for defining and implementing strategies and policies, also in respect of ESG matters.
